

PATENT APPLICATION

## REMARKS

Applicant responds to the Response to Notice of Non-Compliant Amendment by changing the designation of claim 12 to "previously presented." Applicant simply resubmits the "Amendments to the claims" section as advised in the notice.

Could amendments of this nature be better handled by a telephone conference with the Applicant and subsequent Examiner's Amendment, since they are purely technical errors for matters not in controversy?

Respectfully submitted,

John C. Hammar  
Reg. No. 29,928  
206-544-1059
